Now Lexington is brought disgracefully to the front.

The old soldiers, like autumn leaves are fast being wafted to the great west.

In ten more days Guiteau will deliver an address filled with lots of good advice to the American citizens, and the sheriff will close the argument with a rope.

The Court of Appeals has affirmed the decision of the lower court, and the murderers Neal and Craft, will hang as soon as Governor Blackburn fixes the day.

MANY farmers in Kentucky wouldn't object now to owning a hundred acres of hogs. They could then afford to go forth to battle with the army worms.

We have it from very good authority, that the Jacobs party tried to buy an endorsement of the colored men in convention at Lexington last week, but it was no go.

On Lord, give us this our week ly hanging and, for Jesus sake, Amen," seems to be the prayer of the faithful over the grand old State now.

An alleged "History of Bourbon, Scott, Harrison and Nicholas Counties," is the title of a new invention of the Devil, and cast into those counties for the purpose of undoing the heavenly work of Bro. Barnes. And the satanic device appears to be only too successful. It seems to have set all the converts to hard swearing, and the preachers endorse their profanity with unctious "Amen's." That unconverted sinner, Bruce Champ, of the Bourbon News, fairly revels in the misery of the victims of the plutonic plague.—[Breckinridge News.

Where She Strayed.

We have always been ignorant of exact date and by whom the seeds of secession were first sown, until we opened the history of Bourbon at page 313, in F. L. McChesney's biography. Here is what it says: "He (McChesney) had been educated to believe in the rights of secession, and always aimed to follow his principles wherever they might lead. As far back 1852, when no one dreamed of a dissolution of the union in the Chamberlain Society of Centre College, he made his first speech in debate, in favor of the rights of secession, and, when the proposition was submitted to a vote of the members of the society, his side won the question." Now this does settle that vexed question indeed. Just think of it! Our own townsman being the cause of secession, the bloody fratricidal war! Oh, that he had been shot, or hung in infamy! Yes, 'twould been better had he been burned at the stake, than to have ushered 300,000 souls into eternity, and maimed half a million more, to say nothing about the ten thousand tobacco hogheads of tears, the innumerable widows and orphans and bursted up love scrapes that inevitably followed the dire calamity! The ghouls from the graves of dark and bloody battle fields will now henceforth sing in the sad and mournful Katy-did and whip-poor-will requiem, the name of McChesney.

Millersburg Items.

Fresh Blue Lick always on tap at the Johnson House.
 Army month reunions are held on every corner by day and night.
 Prof. Alex. Redd and wife have gone to Harrison county to spend vacation.
 In a match game of base ball here Friday, Carlisle beat Millersburg in a score of 17 to 13.

The colored brass band from Cynthia, honored a "festive" with a visit here Saturday night.
 The exercises of both colleges are said to have been more interesting than usual, this year.

A big rain raised the water on a flat in Charlie Lee's wheat, and drowned all his crop of army worms.

W. H. H. Johnson was fined \$15 in police court Friday, for selling cigars on Sunday. He will appeal to a higher court.

President Patterson, of Hamilton College, Lexington, honored the commencement exercises Friday evening, with his presence.

The past commencement week was the soberest, and indeed, the most interesting that has been had on like occasions for ten years.

At the match game of base ball here Friday, a girl got struck on the back of the head with a ball, and the bawl came out of her mouth.

Both hotels did a booming business the gala week—more so than any previous year. The visitors to private houses, however, were fewer in number.

The Johnson's case for shooting John Clark with intent of killing, which the life of him was called Friday, and Clark not being able to appear as a witness, the case was put off until July 1st.

It is now thought that the cow which walked into Smedley's store, went in there to give him a horn-blow, "Smedley" thought it was a bull, by good opportunity to take advantage of the temperance movement, strayed his way out quickly on his calves.

Frank Champ has been fighting the army worms for eleven days, and has about eight miles of incriminations. Charlie Clarke and several others also intrenched and fired off countless volleys of profanity in seven different languages.

An old account of Horace Triggs, aged 87, who died at Paris, Ky., 1872, has been handed up. It is credited by 29 lbs of beef, at 14 cents per pound, and 3 bushels of wheat, at 50 cents per bushel. Also, a letter from C. Johnson, dated Greenville, Miss., Nov. 27th, 1813, was shown us.

Henry Hunter has been offered 52 acres of land in Pennsylvania, valued at \$10,000, for the right of that State on his patent pump. He has written accepting the offer, pending the agent will sell it for \$20 per acre, after which he can deduct the \$100 commission asked for making the exchange.

Win Nourse and a corps of painters from Cynthia, has just completed their artistic touches on J. C. Eedeley's handsome residence. It is said by many of our people, who have been away from home, to be the handsomest job of painting in the town. Triggs and Brown were the carpenters, and collected much credit upon themselves for their execution of the work.

Friday evening closed the commencement exercises of the week, of the Female College. There were seventeen graduates. The hall was as usual, crowded to overflowing, and the exercises were of increased interest. The elocutionary exercises of Friday morning, were particularly interesting. There were seven competitors for the medal. Miss Allie Wilson, of Texas, bore away the proud honors.

The following are the graduates of Millersburg Female College, this year: From Texas—Misses Emma Duncan, B. Yelverton, Zuma Waters, Fannie Jones, Allie Wilson, Sallie Neal, Ella Wynn, and the Misses Johnson. From Kentucky—Misses Ella Harber, Dixie Bohon, Annie Russell, Lucie Sparks, Tillie Littlejohn and Sallie McIntyre. From West Virginia—Miss Eva Garner. From Louisiana—Miss Camilla F. Lachs. Thirteen gold medals were in various departments of study.

Carlisle Items.

The wire links us to the Licks. We can now "tell-a-funny" thing or two to the pleasure seekers. Methodist Conference meets here in September. Our women are preparing for it, by setting all hens not otherwise engaged.

George Powers of this place, has laid out and chartered a town in Bath county, opposite Sherburne, which he calls Harris.

The Christian Church has been "utterly uttered," and is now so refitted that Oscar would get Wilde with delight were he to see it.

The City election passed into history Saturday—Judge Lon Mann is now Mayor. "Sancho, 'de-vrat' it bring out my four-in-hand!"

A gemmen of color voted in two wards on Saturday. He will be sent up after Mr. Barnes' meeting is over. Isn't willing to go before.

Vennor likens our summer to the ham in a restaurant sandwich. Correct—but the ham's strong and filled with skippers, i. e., army worms.

The army worm is still on the "march to the C"—r-n and wheat. There are short-lived and the rapidity with which they are transformed being "beat-I."

Henry Green is to have a train of yellow coaches. How very appropriate. Travelers who are usually "blue," in "yellow" coaches, makes "Green" come in right.

During the recent storms several persons in this locality have been thunderstruck at the way their gardens have been leveled and their truck patches washed out.

Some idiots ought to start a Guiteau Monumental Association and place the lunatic from Powell at the head of it—there's a power in his name that would raise money rapidly.

The temperance question got mixed up in the City election Saturday. Some of our temperance men wind up at temperance meetings but run down or break a main-spring before election day.

Since Webster & Fisher lost their grip on the Mercury, they have plenty of loose cash on which they are paying interest and which they would like to loan out on cut-throat mortgage or invest in a county right for a patent reversible-double-back-acting farm gate, or "suthin' of the like."

At Bradley's Mill, Kentucky, Sam Cromer cut his uncle's throat, and the uncle mashed Sam's skull with a stone.

Jim Mitchell, colored, who outraged Mrs. Thomas near Mt. Sterling last week, was taken from the jail and hung by a mob.

The last issue of the Yeoman contained eighty-four items about Brother Barnes. This will furnish "notes" for the Kentuckian all summer.

Mr. A. J. Ewing, of Owingsville, is "laying up treasures in heaven." He has been selling corn to the poor of Bath county at sixty cents per bushel, when the market price was \$1.25.

The Yeoman says the greatest work of Brother Barnes lies in the prison on Sunday last. "One of forty female convicts there were forty confessions, and all of them were in tears; out of 500 male convicts the were nearly four hundred confessions, and many were in tears."

KENDALL'S SPAIN CURE
 205
 The Most Successful Remedy ever discovered as it is certain in its effects and does not blister. Also excellent for human flesh. READ PROOF BELOW.

COL. L. T. FOSTER.
 YOUNGSTOWN, OHIO, May 10th, 1880.
 B. K. J. KENDALL & Co., Gents.—I had a very valuable Hambleton colt which I prized very highly; he had a large bone spavin on one joint and a small one on the other, which made him very lame; I had him under the charge of two veterinary surgeons who failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the Chicago Express, I determined at once to try it, and got our druggists here to send for it. They ordered three bottles. I took them all and thought I would give it a thorough trial, and used according to directions and the fourth day the colt ceased to be lame, and the lumps had disappeared. I used but one bottle and the colt limps as free from lumps and as smooth as any horse in the state. He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles who are now using it. Very Respectfully,
 L. T. FOSTER.

Sent for Illustrated Circular which gives positive proof of its virtues. We can now "tell-a-funny" thing or two to the pleasure seekers. Methodist Conference meets here in September. Our women are preparing for it, by setting all hens not otherwise engaged.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

It is a most agreeable dressing, which is at once harmless and effective, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brassy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The Vigon cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals more or less of all the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair
 The Vigon is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, as well as article for the toilet it is economical and unsurpassed in its excellence.
